

## Auto-Scale for less

Cut operational costs and  
easily handle traffic spikes

### The Future Is Now

If you're currently running SAP Hybris for e-commerce, you may be aware of the *opportunity to upgrade to SAP's Commerce Cloud platform*. We are proud to be the UK's foremost Commerce Cloud experts, over 75% of our clients have converted to cloud, so we're a safe pair of hands when it comes to your upgrade.

### Commerce Cloud is the future for SAP

*It is where all the new features and SAP investments will be*

- Unlike SAP Hybris, SAP Commerce Cloud will auto-scale, meaning your website will automatically meet incoming demand and deal efficiently with spikes in traffic. You no longer need to worry about Black Friday or other peak times.
- All the pain of hosting - and the costs - go away.
- You no longer have to have a team - or employ an agency - to keep your servers healthy. SAP Commerce Cloud removes infrastructure, development headaches and management responsibilities.
- Increase your ROI and AOV with front-end flexibility and rapid roll outs.

### Thinking of upgrading from SAP Hybris to Commerce Cloud?

We share our tips  
on the best time,  
and the best way,  
to make the move.

**SAP®** Qualified  
Partner-Packaged Solution

## Reduce Operational Costs, typically by 15-30%

With SAP Commerce Cloud you will no longer have to worry - or pay for - maintenance, hosting management, deployment or support. Upgrading to the Cloud reduces the hefty overheads associated with on-prem Hybris.

In fact, our analysis of a UK retailer customer turning over £100m / year showed they will save £2m+ over 5 years. We can help you work out what your cost savings are likely to be too.

## Thinking of Upgrading?

KPS Cloud Converter is a fully managed software-and-services package which mitigates any risk and enables you to get the benefits of SAP Commerce Cloud in only 6-8 weeks' implementation time and from as little as £20,000.

## Your Free Cloud Readiness Report

We're offering all SAP Hybris customers a free, no obligation, Cloud Readiness Report. Once you have it you could choose to simply pass it to your current provider for them to implement, you could ask us to help you upgrade, or you could decide to do nothing for now. Either way, with just a few hours of your time, we can arm you with:

- A meticulous action plan, with costs and timings
- A bespoke cost saving calculation for your business
- Our recommendations on the best time for you to make the move (it may not be now)
- Our advice on the best way to upgrade - we have already moved half of our customers to the Cloud

## You're in Good Hands

At KPS, we have 320 SAP CX consultants and we are an SAP Hybris Platinum partner – so you are in very safe hands. You can trust your upgrade to the Cloud with one of the most capable groups within Europe.

We have a reputation for being great at what we do - and for being really nice, decent people! We were voted e-commerce agency of the year, and we're highly regarded by SAP.

75%

of our customers have now upgraded from SAP Hybris to SAP Commerce Cloud

We can help you move too.

▶ “Working with KPS on the L.K.Bennett upgrade from SAP Hybris to SAP Commerce Cloud was one of the biggest web projects we've undertaken in recent years from a scope and investment perspective. We were really pleased with how the project was planned, run and delivered. The thorough planning meant we were able to go live with minimal impact on customers and our business. This now gives us a solid foundation upon which we can grow and develop our digital channels.”

Zoe Donovan *Digital Director, L.K.Bennett*
